12247	03/01/02	17	The customer complained that the agent threatened to hang up on her. I informed the caller that the complaint is being documented and it will also be forwarded to customer svc. The customer then threatened to bomb the FL center and I disconnected the call.	03/01/02	Immediately after the complaint was filed I addressed the agent. She stated that she processed the call following proper procedures when a recording was reached. That information was relayed to the customer and when the customer was informed that the recording hung up, she accused the agent of threatening to disconnect her call. A lead agent was present and observed the entire call as she was evaluating the agent. She too stated the same thing transpired as the agent. Based on the information gathered from all parties involved, proper procedures were followed.
12246	03/01/02	17	The customer stated that the TTY user was trying to make an appointment and wanted the agt to check and make sure the time is okay with the caller and the agent cursed at her. The agent said "god damn it" while pulling his microphone away from his face.	03/01/02	The agent was addressed regarding this complaint immediately after the complaint was made. The agent stated that the call got off to a rocky start, when he asked the voice person to repeat how she answered the phone and she basically refused to do so. Finally after several attempts to retrieve that info, it was provided. Throughout the call the voice person interrupted the agt while voicing the tty user's messages. He explained that he is unable to type while the TTY user is typing and asked if she cld wait until she hears the words "GA" before she responds. This was a reoccurring problem on the call and I inquired if the TTY user had been informed of this and he responded no. I explained to the agent that if a voice person keeps interrupting, that he shld inform the TTY user by typing, (person attempted to interrupt while u were typing). The agent went on to explain that he became frustrated and lost his composure on the call. He said "OH MY GOD" under this breath while pulling the microphone away from his mouth. The voice customer said, "Why are yo

12263	03/05/02	21	The customer stated there were long delays before the agent wld time the voice person's response.	03/05/02	Immediately after the call, I addressed the agent regarding this complaint. The agt stated that the reason why he was not typing was because the voice person had not begun speaking. I informed the agent that if there are long pauses before the voice person responds that the caller shld be made aware of that by simply typing, (pause) or (person is not responding yet) something to that effect. The agt understood and was very receptive to the suggestions made. The QA dept will closely monitor the agt to ensure that all customers are kept informed.
3259F	03/06/02	29	Customer dials 1-888-877-5381 for CA Spanish operator, but the operator who answers does not speak Spanish. Supervisor Charles(9634M) assisted and informed the customer they were dialing the wrong nbr and that the correct nbr is 1 800 435 8590. I advised the supervisor that the nbr he had given the customer was for Sprint National Spanish and wld only help the customer if they were calling state to state. The customer has reported this problem and has not been contacted for follow up and the problem still exists. The customer was told in the past by a FL center sup that sometimes a Spanish speaking agt will go to break and then an English speaking agt will sit at the same position not realizing it is gated for Spanish. The customer asked that I forward this complaint to the call center where Charles is located as well as training. The customer wld like follow up from the acct mgr as soon as possible.	03/07/02	After receiving this complaint, addressed the agt and sup regarding this complaint. The agt stated that after reaching an answering machine message, which was in Spanish, she informed the caler that the msg was in Spanish and that she does not understand Spanish. The customer then requested a sup. Supervisor Charles assisted the agt on the call. He stated that the customer asked for the correct nbr for Spanish Relay at which time he provided 1-800-435-8590. He customer informed Charles that the nbr he provided was incorrect as he always dials 1-888-877-5381. He requested that Charles contact Customer Service to find out which nbr was correct. Charles proceeded to contact Customer Service. The rep stated that both nbrs are correct for Spanish Relay. Then the customer filed a complaint stating that when he dials 1-888-877-5381, English agts are receiving the calls as opposed to Spanish agts. The rep informed him that she wld enter a trouble ticket since this seemed to be a technical matter. Charles was informed that the nbr that he provided the customer

I told the customer I wld inform the agent's supervisor.	03/08/02	I spoke with our on-site technicians regarding this complaint and was informed that due to the lack of information, a trouble ticket can not be entered. However, Call Center Technical Support is currently investigating this matter. I also addressed the agent regarding this complaint and informed him that if a customer complains of garble that a supervisor shld be alerted so that they may get the necessary information so that a trouble ticket may be entered.
12262	03/06/02	17	Customer complained that agent 9887M was very unprofessional throughout his call.	03/07/02	After investigating this complaint discovered that this nbr belongs to a female agent whom did not work on this particular day. I also reviewed the Rockwell reporting to find out if another agent accidentally logged into the system under an incorrect ID nbr however that was not the case. It was discovered that no one was logged into the system under 9887 on March 6th. No further follow up possible.
12276	03/07/02	21	The caller stated that the agent processed a call from a Senator to his/her number at 3:45p.m. and 3:57p.m. and that the agent kept threatening that the message was garbled. For more than one minute the agent kept sending "MSG GARBLED PLS REPEAT) macro and only message transmitted on his/her TTY was "Hi I'm Susana." An attempt was made to apologize to the customer, however they hung up before I cld finish typing.	03/09/02	After investigating this complaint discovered that this nbr belongs to an agent whom did not work on this particular day. I also received the Rockwell Report to find out if another agent accidentally logged into the system under an incorrect ID nbr however that was not the case. It was discovered that no one was logged into the sytem under 9887 on March 7th.
10874	03/11/02	30	This customer has been charged by Sprint for placing calls through Sprint CRS even though there is a promotion of FREE LD calls. He has faxed me the phone statement. He has claimed he used 888-877-5380 ASCII and 877 735 2929 TTY to connect with Sprint CRS.	03/12/02	He requested to remove AT&T and leave it blank for long distance. Faxed him more info on database form. 3/12/02
3275F	03/11/02	10	Customer states that he asked for HCO and typed, "Do not type" and still the agent typed to him.	03/19/02	Addressed the agent regarding this complaint. He stated that he does not have problems wen processing HCO calls. The agent was coched on the proper way to proccess HCO calls.
6800	03/12/02	21	Customer was upset that the agent sent the alt 1 "person hung up" when no live person was ever on the line. Line was answered by a recording.		Spoke to agent informed him in the future to say line disconnected or recording hung up.

3283F	03/13/02	05	Caller told opr that he is HCO and please do not type to him. Caller then said operator just disconnected on him.	03/19/02	Addressed the agent regarding this complaint and she stated that she did remember receiving this particular call. The agent stated that immediately after the caller informed her that he wanted to use HCO the red box appeared on her screen, which indicates that the caller disconnected. It did not strike her as odd because the same things occurred earlier that day. She assumed the caller simply changed his mind about making the call. I informed the agent to report this type of occurrence to a supervisor so that they may notify one of our on-site technicians to check the terminal for technical difficulties. The agent was also encouraged to document incidents of this nature on a CA feedback form so in the event that we receive a complaint, we will have that information on file. The Rockwell reporting was closely reviewed and it was discovered that the agent's numbers were normal. In addition, the agent was coached extensively on how to process various types of HCO calls as she expressed unfamiliarity with HCO calls. The agt was provided with numerous procedu

12327	03/14/02	21	Voice customer stated that agent 9281 F did not follow correct procedure. She did not announce relay, she only said "okay, okay hold on"	03/20/02	After receiving this complaint, the agent was monitored to further investigate. The agent announced calls appropriately, in fact after reviewing her performance file; she has never received a low mark for not announcing the relay service. The agent was addressed regarding this complaint however she had no recollection of the call. The agent was coached on the importance of announcing all calls and using the appropriate announcement for the specific call-type. The agent was receptive to the feedback provided. In addition, the QA department will continue to monitor the agent to ensure all calls are announced properly.
1793	03/14/02	7	TTY user was upset because they said at 2:05p they received a call where agent typed so slow that the voice person wound up hanging up on them. Said that typing that slow was unacceptable and cost them a call as they typed was to slow.	04/02/02	CA lowered typing speed to combat garbling. Unable to reach customer.
12334	03/20/02	1	Customer complained that agent 9012M needs to work on his typing speed. Also when the agent was asked to dial the nbr there was a long delay. I thanked customer for bringing to my attention and assured the customer the agent would be addressed. I also apologized to the customer for the inconvenience caused.	03/22/02	After receiving this complaint the agent was monitored to further investigate. However when he was monitored he connected all calls in under 6 sec. The agent was addressed regarding this complaint however he stated that he does not recall taking excessive amount of time to connect any calls. The agent was required to take a typing test, which revealed that he typed 86 wpm. His speed clearly exceeds job requirements. The agent was coached on the importance of adhering to the 6 sec policy on every call. Will be closely monitored by QA dept.

3319F	03/22/02	21	Customer states that this CA was rude and unpleasant on her call and that she usually has a very good experience with all relay ops. This was on a business call with a deaf client and the customer was on her cell phone and wanted to give her email address to the client. She gave her email address and then asked the agent if they got it or needed it repeated. The agent did not answer but typed to her client everything she said. Agent would not answer no or yes but just said he could not become part of the conversation and kept typing everything that she said to her client which caused the call to be very confusing. Finally the client said that the agent could not interrupt on the call.	03/25/02	Based on the information provided, the agent followed proper procedures in remaining transparent in addition to defining his role. However the agent was coached on the importance of being warm and courteous to every customer at all times. Reviewed agent's performance file and he has always received exceptional scores in regards to phone image and transparency.

3337F	03/28/02	2	Customer has call notes "opr: if you are leaving soon, give this call to another opr, no changing". On an important call to her bank opr 9037F made a change to another agent and the customer didn't even know about it until clear at the end of the call when it was agent 9409M that ended the call. This surprised the customer and she asked how long agent 9409M had been on the call and he said approximately 24 minutes. The customer did not like this at all. RCS response: Thanked the customer for letting us know and assured that we will turn in the complaint the complaint so that it could investigate further.	04/02/02	After receiving this complaint both agents were addressed. Agent 9307F stated that she did not read the customer notes before proceeding to process the call. Shortly after agent 9409M relieved her from the call. Agent 9409M stated that the customer notes were not visible as the log box hid them. Once he had logged in he noticed that the notes stated not to relieve the call. At this point the previous agent had already left therefore he had to continue the call. He stated that he did not inform the customer that he was relieving the call by sending the ALT 3 macro, because he did not want the customer to be upset. Both agents were coached on the importance of adhering to customer notes. They were also coached on the proper procedures to follow when relieving or being relieved from a call. As a result of not following procedures disciplinary action will be taken against both agents.

6846	04/16/02	21	Agent 6157 told me all circuits were busy and refused to redial for me. I called back to another opr & the call went thru. This was @ 8:14am.	04/23/02	Spoke to agent "agent dialed #" reached recording that said all circuits are busy. Agent disconnected redialed back she same # reached same recording typed rec. out. Customer asked agent a question agent was under the assumption the customer didn't understand the typed recording agent then explained on her own words what the recording meant. All telephone lines are busy at this time customer then diconnected never asked agent to redial. Not agent error.
6848	04/17/02	15	Agent 6349 did not type recording properly. Typed wrong hours business is open.	4/17	Coached agent on proper recording feature procedure.

Ca was puzzled and doesn't recall an incident. I know Ca wouldn't do such a thing like being rude.

4684	05/27/02	21	Caller said Ca misdialed # and stated that his mother never had an answering machine-Ca typed answering machine recording - the caller asked for a supervisor & had me rechecked. Apologized and asked if he wanted Ca to redial again. He agreed then got hold of his mother. She said her friend set up an answering machine and tried to disconnect the machine.	05/28/02	the caller apologized to CA for an error. CA did the right procedure.
12483	05/28/02	21	Customer stated that on yesterday 5/27/02 agent 9519F lied to him. She said that no one answered the line when I dialed 1 800 898 4555 that nbr is open 24 hours a day.	05/30/02	Met with agent. Coached agent on the importance of relaying everything heard. Follow up customer Resolution: 1st attempt: Contacted customer 5/31 @ 5:30pm EST no answer. 2nd attempt: Contacted Customer on 5/31 @ 6:10pm EST. Apologized to the customer for the inconvenience and informed him that the agt was coached on this issue. The customer was satisfied with the resolution and thankful for the follow up.
12482	05/28/02	00	Agent 9059f took more than one minute to respond when asked to dial nbr. Agent 9059F threatened to disconnect outbound line. I am fed up with her wasting my time.	05/29/02	Met with agent. Coached agent on the importance of dialing out in a timely manner. Follow up customer resolution: 1st attempt: Contacted customer on May 31st @ 5:30p EST-no answer. 2nd Attempt: Contacted customer on May 31st @ 6:10pm EST. 3039G	05/28/02	03	I can't get any of the relay oprs or the sups to follow my instructions to place the relay cal lto my fianc. There are specific instructions when they dial the nbr to press "GA" before the call will proceed, that will send the signal to the TTY light and my fianc will answer. The oprs and the sups are not following my dialing instructions.	06/07/02	Contacted customer 11:50pm via VRS - explained about customer profile and next time provide specific agent # info so we can help further. Will bring up to Training mgr for heads up on new technology -using com som system. Thanked her for letting us know.
12225	05/29/02	21	Customer stated that he had called Doctors office and the agent all of sudden hung up on the outbound person. When the TTY called again with a different opr, the nurse at the doctor's office said she had not hung up on the call. The opr told the nurse that the TTY user wld hang up, so that is why the nurse hung up. The TTY user stated that after he typed, "...will I see different therapist?" the agent typed. (person hung up). The tty user stated that the agt was lying to him and that it was not right for the agt to get involved in the conversation. The customer stated that this incident occurred at 10:58 am PST.	06/03/02	Met with agent. Discovered that there was a misunderstanding between the agent and voice person. Agent voiced the caller's message that was misunderstood and resulted in the voice person disconnecting. Coached agent on the importance of voicing with clarity to ensure messages are received
3042G	05/29/02	03	Customer received this call through relay. During the conversation his call waiting beeped and caused him to miss part of what the relay opr was reading form the tty customer. He asked the opr to repeat. Instead of rereading what the person had typed, she typed what he said to the tty user and he had to wait for the tty user to type everything again. The customer wold like for a supervisor to make the agt aware that they can repeat without making the tty user type everything again.	05/30/02	Spoke to CA. She said the outbound was angry because Ca typed & relayed everything to tty caller. Ca did the right procedure.
1960	05/30/02	21	Customer was irritated that the CA would not repeat what tty user said after Ga. He said the CA shld just be able to repeat what was said and the need to retype question to tty user was a ridiculous policy.	06/03/02	CA followed proper CA protocol of not repeating any conversation once ga was given.
